MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT : Report of Survey of the National  
Photographic Interpretation Center

1. Forwarded herewith is our report of survey of the National Photographic Interpretation Center (NPIC). Copies are being forwarded separately to the Deputy Director for Intelligence.

2. I am pleased to report that we found NPIC to be an effective organization, and one that is wholeheartedly committed and dedicated to the task of satisfying customer requirements. NPIC has received deservedly high praise from its customers for its accomplishments and its timely assistance and services. Unfortunately, however, as the report points out, NPIC is not as efficient as it could be, in large part because of the heavy influence of the military services on what it does.

3. The report contains 16 recommendations, all of which are addressed to the DDI or to the Director, NPIC. The approval and implementation of these recommendations should permit NPIC to operate with increased efficiency.
